## NL

Gesticht in 1991, is BEL LIGHTING - SENICO tot op heden een zelfstandig familiebedrijf met meer dan 50 personeelsleden, werkzaam in onze productie te Megara (Griekenland op 20min van Athenes) en onze hoofdzetel te Sint-Renelde (België nabij Brussel). Als ontwikkelaar in de verlichtingssector gespecialiseerd in buitenverlichting, ontwikkelen en produceren wij toestellen van hoogwaardige kwaliteit voor een internationaal cliënteel. Creatie en design worden intern ontwikkeld, wat met de jaren resulteert naar een uitgebreid gamma. Het continu nastreven naar hoogwaardige kwaliteit is de sleutel van ons succes. Onze visie omtrent kwaliteit houdt ook in dat niet alleen de kwaliteit van het product perfect hoeft te zijn, en dus ook professionaliteit op niveau van advies, een betrouwbare en klantvriendelijke service en een goede follow-up van afgesproken leveringstermijnen zijn hier onontbeerlijk.

De prioritaire activiteiten van BEL LIGHTING - SENICO zijn het permanent aanpassen van onze producten te behoeve van de klant en ten behoeve van huidige vernieuwde technieken en trends, wat bijdraagt tot de betrouwbaarheid van onze producten. Onze creaties beantwoorden aan de huidige kwalitatieve normen en kiezen dus nauwkeurig eerste keuze grondstoffen uit. Een uitgebreid gamma wordt vervaardigd met natuurlijke zoals aluminium, messing, inox, exotisch hardhout en Belgische blauwe steen, die zich integreren in hun natuurlijke omgeving. De technische kwaliteit en een mooi design zijn de belangrijkste objectieven van ons bedrijf, doch een conform gebruik en plaatsing door een erkend installateur u een langdurig en veilig gebruik. Deze editie van onze catalogoog is meer dan een update van onze complete collectie van verlichtingstoestellen. Deze catalogoog is het resultaat van teamwork op niveau van research, design, technische input, productie en marketing.

BEL LIGHTING - SENICO, de waarde toegevoegd aan het licht.

Lighting Fair in Frankfurt (Germany)

## FR

Fondée en 1991, BEL LIGHTING - SENICO reste à ce jour une société familiale, indépendante, avec plus d'une cinquantaine d'employés travaillant dans notre usine de Megara (Grèce) et au siège central de Saintes (Belgique). Créateur de luminaires spécialisé dans l'éclairage extérieur, nous développons et produisons des appareils de haute qualité pour une clientèle internationale. La création et le design étant effectués en interne, nous avons fermement décidé de bâtir notre réputation dans le haut de gamme. L'insistance sur une haute qualité est la clef de notre succès et est, à nos yeux, plus que le simple approvisionnement d'un produit parfait. Elle englobe également la compétence professionnelle, le conseil, un service amical, fiable et rapide ainsi que le respect de la date de livraison promise.

La préoccupation principale de la firme est l'adaptation permanente des produits aux besoins spécifiques du marché, créant ainsi une atmosphère de confiance avec nos clients. Nos créations répondent aux normes de qualité et nous employons toujours des matières premières nobles. Certains produits sont fabriqués dans des matières naturelles (aluminium, laiton, inox, bois exotique et pierre Belge) sans protection de surface et qui s'intègrent totalement dans leur environnement naturel. La qualité technique et un bon design sont les objectifs essentiels de notre travail dans le développement et la fabrication de nos produits, mais seule une utilisation conforme, une installation et un entretien fait par un spécialiste garantit la sécurité d'exploitation. Cette édition de notre catalogue est, plus qu'une mise à jour de la gamme complète de nos luminaires, c'est le résultat du travail de nos équipes de recherche, design, contribution technique, production et marketing.

BEL LIGHTING - SENICO, la valeur ajoutée à la lumière.

## EN

Founded in 1991, BEL LIGHTING - SENICO is still to this day an independent family company with over a fifty employees working here at our present factory in Megara (Greece) and headquarters in Saintes (Belgium). Lighting creator specialized in outdoor lighting, we develop and produce high-quality products for an international clientele. We do our own in-depth design work and have steadily built up our range over a number of years. Insistence on high quality has been a foundation of our success. Quality, in our view, means more than the simple supply of a flawless product, it stands also for professional competence in giving advice, a fast, reliable and friendly service for our customers, and adherence to promised delivery dates.

The main preoccupation of the firm is the permanent adaptation of its products to the specific needs of the market and the client, creating this way a complete confidence atmosphere. Our creations reply to the norms of quality and we always use first choice materials. Some products are manufactured in natural materials (aluminium , brass, stainless steel, exotic wood and Belgian stone) without coating and integrate totally their natural environment. The technical quality and a good design are the essential objectives of our work in the development and the manufacture of our products, but only a conform utilisation, a setting and maintains made by specialists guarantee the security of exploitation. This edition of our catalogue is more than just an update of the complete range of lighting products. It is the result of our engagement with quality and a teamwork in the improvement of research, design, technical input, manufacturing and marketing.

BEL LIGHTING - SENICO, the value-added to the light

## DE

Seit der Gründung im Jahr 1991 ist unser Unternehmen Bel Lighting - Senico ein unabhängiger Familienbetrieb der mittlerweile mehr als fünfzig Angestellte in den beiden Produktionszentren Megara (Griechenland) und Saintes (Belgien) beschäftigt. Als Leuchtenmanufaktur mit dem Schwerpunkt im Außenleuchtensegment entwickeln und produzieren wir hochwertige Produkte für unsere internationale Kundschaft. Wir investieren kontinuierlich in das Design neuer Leuchtenkreationen und konnten dank dieser Investition unsere Produktpalette stetig ausbauen. Der Anspruch an höchster Qualität ist das Fundament unseres Erfolgs. Qualität bedeutet aus unserer Sicht nicht nur einfach der Vertrieb von makellosen Produkten, sondern auch professionelle Beratung, sowie schnellst möglichen, zuverlässigen und freundlichen Service für unsere Kunden und Einhaltung von zugesagten Lieferzeiten.

Das Hauptaugenmerk unseres Unternehmens liegt in der permanenten Anpassung der Produkte an die spezifischen Wünsche des Marktes und der Kunden. Auf diesem Wege wird eine vertrauensvolle Atmosphäre geschaffen. Wir verwenden stets erste Wahl Materialien, wodurch unsere Leuchtenkreationen stets höchste Qualitätsmaßstäbe erfüllen. Einige Produkte werden aus natürlichen Materialien gefertigt (Aluminium, Bronze, Nichtrostender Stahl, exotisches Holz und Belgischer Blaustein) und ohne zusätzliche Schutzschichten in ihrer Natürlichkeit erhalten, wodurch sie sich hervorragend in ihrer natürlichen Umgebung integrieren. Die technische Ausgereiftheit und ein herausragendes Design sind essentielle Triebfedern unserer Arbeit in der Entwicklung und Fertigung. Jedoch bedarf es für eine optimale und sichere Anwendbarkeit unserer Produkte auch eine sachgerechte Verwendung, sowie eine vom Fachmann sichergestellte Installation und Wartung. Diese Ausgabe unseres Katalogs ist mehr als nur ein update unserer Beleuchtungsserie. Es ist vielmehr ein Ergebnis unseres Engagements durch Qualität und Teamwork eine Optimierung unserer Forschung, unseres Designs, der technischen Performance, der Fertigung und des Vertriebs zu erreichen.

BEL LIGHTING - SENICO, unser Maßstab ist das Licht.

## GR

Η BEL – LIGHTING SENICO ιδρύθηκε το 1991 και παραμένει μέχρι και σήμερα, είναι μια οικογενειακή εταιρεία με 50 εργαζομένους περίπου οι οποίοι εργάζονται μαζί με τα στελέχη της εταιρείας στην Ελλάδα και στο Βέλγιο.

Η εταιρεία ειδικεύεται στον εξωτερικό φωτισμό.

Η υψηλή ποιότητα είναι το σήμα κατατεθέν μας. Το πρωτοποριακό design σε συνδυασμό με την υψηλή ποιότητα και το πολύ καλό logistic είναι αυτό που μας χαρακτηρίζει. Ο στόχος μας είναι να προσαρμόσουμε τα προϊόντα μας στις ανάγκες της διεθνούς πελατείας μας με τις ιδιαιτερότητες του κάθε market.

Για να επιτύχουμε τα παραπάνω χρησιμοποιούμε πρώτες ύλες όπως φυσικό αλουμίνιο, ανοξείδωτο χάλυβα, ορείχαλκο, εξωτικό ξύλο, πέτρα Βελγίου, κλπ.

Ο νέος μας κατάλογος είναι κάτι παραπάνω από την παρουσίαση μεγάλης γκάμας νέων προϊόντων. Είναι το αποτέλεσμα μιας προσπάθειας του παντρέματος έρευνας, design, τεχνολογίας, πρωτοποριακού συστήματος παραγωγής και marketing.

# LED ACCESSORIES

## electronic Power supply for SMD LEDs 24Vdc

output power : 1 - 3W

input voltage: 95-240V 50/60Hz  
Stabilised output voltage 24Vdc  
weight : 45g  
dimensions: 40 x 42 x 21  
CE - IP20 - Class 2  
Thermal, overload and short circuit protection

Led01

code: X011

IP20

output power : 1 - 10W

input voltage: 95-240V 50/60Hz  
Stabilised output voltage 24Vdc  
weight : 60g  
dimensions: 115 x 34 x 17  
CE - IP20 - Class 2  
Thermal, overload and short circuit protection

Led02

code: X012

IP20

Exterior Kit  
output power : 1 - 10W  
input voltage: 180-265V 50/60Hz  
Stabilised output voltage 24Vdc  
weight : 460g, CE - IP68 - Class 2  
dimensions: 100 x 59 x 45  
Thermal, overload and short circuit protection

Kit 24Vdc

code: X026

IP68

output power : 1 - 25W

input voltage: 95-270V 50/60Hz  
Stabilised output voltage 24Vdc  
weight : 140g  
dimensions: 157 x 43 x 30  
CE - IP20 - Class 2  
Thermal, overload and short circuit protection

Led27

code: X027

IP20

output power : 1 - 45W

Din-Rail Switching Power Supply  
input voltage: 85-264V 50/60Hz  
Stabilised output voltage 24Vdc  
weight : 400g  
dimensions: 78 x 93 x 67  
CE - IP20 - Class 2  
Thermal, overload and short circuit protection

Led28

code: X028

IP20

### Installation

## electronic Power supply for Power LEDs 350mA & 500mA

output power : 1,2W

input voltage: 100-240V 0/50/60Hz  
Constant output current 350mA Dc  
weight : 50g  
dimensions: 32 x 34 x 25  
CE - IP67 - Class 2  
Thermal, overload and short circuit protection

Led21

code: X021

IP67

output power : 1 - 6W

input voltage: 100-240V 0/50/60Hz  
Constant output current 350mA Dc  
weight : 93g  
dimensions: 45 x 45 x 25  
CE - IP67 - Class 2  
Thermal, overload and short circuit protection

Led22

code: X022

IP67

output power : 1 - 10W

input voltage: 100-240V 0/50/60Hz  
Constant output current 350mA Dc  
weight : 165g  
dimensions: 86 x 35 x 27  
CE - IP67 - Class 2  
Thermal, overload and short circuit protection

Led10

code: X014

IP67

output power : 3,6 - 14,4W

input voltage: 190-230V 0/50/60Hz  
Constant output current 350mA Dc  
weight : 90g  
dimensions: 138 x 40 x 29  
CE - IP20 - Class 2  
Thermal, overload and short circuit protection

Led12

code: X015

IP40

output power : 1 - 13W

input voltage: 100-240V 0/50/60Hz  
Constant output current 350mA Dc  
weight : 460g CE - IP68 - Class 2  
dimensions: 100 x 59 x 45  
Thermal, overload and short circuit protection

Kit 350mA

code: X023

IP68

output power : 4,5 - 12W

input voltage: 190-230V 0/50/60Hz  
Constant output current 500mA Dc  
weight : 90g  
dimensions: 138 x 40 x 29  
CE - IP20 - Class 2  
Thermal, overload and short circuit protection

Led25

code: X025

IP40

### Installation

## electronic Power supply for RGB LEDs 350mA

Led41

### RGBBox

input voltage: 190-260V 0/50/60Hz  
Constant output current 350mA Dc  
output power : **30W** (max. 27 Power Led)  
time standard cycle: 30 s  
weight : 180g dimensions: 147x75x29  
CE - IP40 - Class 2  
Thermal, overload and short circuit protection

code: X041

IP20

### RGBBox : control by push-buttons

Led41IR

### infrared control for RGBBox (kit)

9 fonctions  
distance : +/- 8m  
Remote control: 147 x 63 x 21 (AIR2T)  
IR lens: Ø 35mm type MR11 (AIR2R)  
IR controller: 117 x 33 x 20 (ARBOX30)

code: X041IR

IP20

### RGBBox : control by infrared hand-set

Led41DMX

### DMX control for RGBBox(kit)

DMX 512 central (ADMXC1) + convertor PLP  
DMX 512 interface (ADMX1)  
(convertor protocole DMX512 ----> PWM)  
9 fonctions  
ADMXC1: 97x97x20 Display LCD 128x64  
ADMX1: Ø 59mm h. 19mm

code: X041DMX

IP20

### RGBBox : control by DMX system

### Seal connector

X081

Adhesive Lined Tubing  
Superior sealing against water, moisture or other contaminants  
operating temperature: -40°C to 110°C

packing: 20 pieces

code: X081.R

code: X081.B

**CLASS I - CLASSE I - SCHUTZKLASSE I**

- A light fitting whose safety is guaranteed by an additional protective conductor (earth) connected with the metal frame of the lamp.
- Deze armaturen zijn uitgerust met aansluitmogelijkheid voor aarding, waarmee alle aanraakbare metalen delen die bij een isolatiestoring direct onder spanning kunnen komen, moeten verbonden zijn. Aansluiting aan de aardleiding is verplicht.
- Les luminaires sont équipés d'un moyen de raccordement pour la mise à la terre, qui interconnecte toutes les parties métalliques exposées susceptible d'être mise sous tension suite à un défaut de l'isolation. Le raccordement de mise à la terre est obligatoire. En cas de défectuosité, le courant est coupé par fusible.
- Leuchten für Anschluß an einen Schutzleiter. Die Schutzleiterklemme ist gekennzeichnet. Im Fehlerfall Netzabschaltung durch Überstromschutzorgane.

CE

**CE standard - CE norm - norme CE**

- The mark CE represents an implicit assurance of quality and affixed under the sole responsibility of the manufacturer. The mark CE must be affixed on the product, or in alternative, on the packing or on directions.
- De CE markering waarborgt een stilzwijgende kwaliteitsgarantie en wordt aangebracht onder uitdrukkelijke verantwoordelijkheid van de fabrikant. De CE markering wordt aangebracht op het toestel of als alternatief op de verpakking of de gebruiksaanwijzing.
- La marque CE représente une implicite assurance de qualité et est apposée sous la responsabilité exclusive du fabriquant. La marque CE doit être apposée sur l'appareil, ou en alternative, sur l'emballage ou sur les modes d'emploi.
- Das CE-Zeichen verkörpert eine klare Sicherung der Qualität und wird auf ausschliessliche Verantwortung des Herstellers angebracht. Das CE-Zeichen muss auf dem Produkt, auf der Verpackung oder auf der Gebrauchsanweisung angebracht werden.
